- * Multi-User Systems
- * OEM Versions
- * 2 Year Warranty

A full range of radio transmitters and receivers, all carrying a 24 month warranty. The transmitters can be supplied in various forms of design and operation, some being traditional styling, others being more dynamic. The receivers are available as standard, external and "power", which means higher switching through the relays. Additionally, there is a new keypad transmitter and 500 user receiver to provide a more secure system for access control type applications.

Product Code

NEW RX39-433	STANDARD RECEIVER, 100 USERS, 2 PULSE RELAYS, FIXED CODE
