

CDVI Announces New ATRIUM High Security Controller and Readers

High Wycombe, UK, March 26, 2019 – CDVI, a leading access control manufacturer worldwide, announced development of an innovative encrypted 4-reader controller. Integrating seamlessly with existing ATRIUM systems, the A22K features a free management software and a 10-year warranty.

"This new cutting-edge controller puts CDVI forward as an industry leader in secure access control solutions. Over the past years, CDVI has constantly invested in its Research & Development to give every installers and end users advanced security solutions with enhanced features and benefits." – Paul Ramsay, CDVI UK General Manager.

High Security Made Easy

The A22K is ATRIUM's encrypted web-based (https) door controller. Use your smartphone, tablet or any web-enabled device to easily manage the system over a secure connection in the office, at home or on the road! ATRIUM's unique and effortless card enrolment mode minimises system start up and simplifies your life. A factory-installed power supply (A22K) or POE+ Splitter (A22KPOE) makes the A22K an industry leader in cost-efficiency and simplicity.

New added features:

- AES 256 Encryption
- HTTPS enabled Microprocessor
- Extended Memory
- USB Backup Port
- OSPD Compliant
- KRYPTO High Security Readers (MIFARE Classic and DESFire EV1/EV2)
